

Do you feel that you are doing too much?

Are you concerned about your children's responsibility?

Do you want to feel like Bill Gates?

smartHome

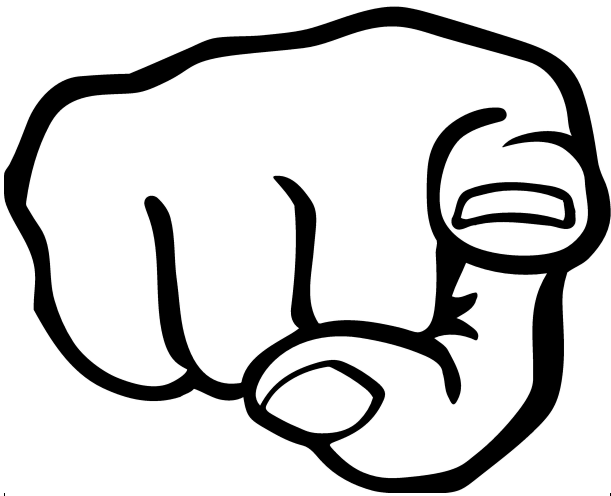

Don't yell because your kids left on the lights!

Don't worry about the door!

Need an easy way to keep track of your monthly usage?

smartHome is the system for you!

What is the smartHome?

smartHome is an intelligent software system that has the ability to truly integrate itself into the lives of its users.

It sounds complicated, and I'm not tech savvy. Will I be able to use it?

The smartHome monitoring system has a streamline, user friendly interface, and an intuitive user hierarchy that allows for easy, convenient use.

So how does it work?

The smartHome system works by observing its users, learning their routines and habits, and making time and energy decisions on their behalf!

It sounds fantastic! Sign me up!!

Just some things that smartHome can do for you:

- Provide access security to your home*
- Remotely control your appliances*
- Autonomously control and govern your living environment*
- Monitor your Electrical usage*
- Monitor your Water usage*
